

Exam 70-688

Supporting Windows 8.1

Skills measured

This exam measures your ability to accomplish the technical tasks listed below. The percentages indicate the relative weight of each major topic area on the exam. The higher the percentage, the more questions you are likely to see on that content area on the exam.

Please note that the questions may test on, but will not be limited to, the topics described in the bulleted text.

As of January 2014, the questions on this exam will include [content covering Windows 8.1](#).

Support operating system and application installation (30–35%)

Support resource access (30–35%)

Support Windows clients and devices (35–40%)
